WHAT SEAVA IS

An online platform: listings, search and messaging for five parts of yachting life.

Seava is not a broker, an agent, an employer or a payment intermediary. It takes no commission, holds no money and is never a party to the deal. Each listing is written by the person who does the work, and owners, captains and crew reach that person directly.

BRAND	Seava. The logo is seava. in running text, "Seava".
WEBSITE	seava.pro
SISTER PRODUCT	Seava Bunkering, free fuel planning: bunkering.seava.pro

THE FIVE SECTIONS

SECTION	FOR	WHAT HAPPENS THERE
Services	Owners, captains, managers	Find marine engineers, electricians, riggers, divers, surveyors, detailers, yards and management companies near a marina or region, and message them directly.
Repair	Owners and captains with a job to do	Describe a fault and collect quotes from providers. Posting a repair request is free on any plan.
Crew	Seafarers	A crew profile with roles, certificates and availability. Free forever: crew never pay.
Jobs	Owners, captains, management companies	Post vacancies. Applying is free and the CV goes straight to the employer.
Yachts	Private sellers, brokers, charter operators	List yachts for sale or charter. Buyers and charterers contact the lister directly.

PLANS

Free to use. Pro to publish and hire.

The same numeral in pounds, euros and dollars; checkout currency follows the visitor's location. VAT is added where it applies.

TRUST PRINCIPLES

Ranking is never for sale.
Paying, a plan or a verification badge never changes where a listing falls. The rules are published in the Terms.

Seafarers never pay.
Profiles, applications and replies are free for crew, in line with MLC 2006. Employers pay to contact crew.

Verification is a signal, not a gate.
Contact verified means a phone number was confirmed; ID Verified means an identity document matched the profile name, through Stripe Identity. Seava does not vouch for anyone's work.

Adverts are always labelled.
Every placement says "Advertisement" or "Sponsored" and never looks like a result.

Seava holds no money.
Booking requests carry no payment. Users pay each other directly.

seava. bunkering

A free web app for yacht fuel management: passage fuel from the yacht's own burn curve, a bunkering ledger, voyages, expenses and charter APA, and PDF, Excel and CSV reports. No account, no tracking; data stays on the device. A planning aid: the master decides.
